

But there was actually 1 duplicate! I have used “~~strikethrough~~” on it in line 55, and it has no numbers in the contract value columns for that one.

Except for the ~~strikethrough~~, the attached list is the same as what I sent you on March 22, except with that bonus “order_mod” Reference column filled in.

I also added a column “Already in Josh’s list?” = yes, if this was already reported in the table you pasted in this email thread, to make it easier for you to reconcile.

(I did not include the POLITICO “CASE_NAM” entries that are in your list, because I wasn’t sure what those are, and they’re not in our internal list – I’m guessing those were maybe GSA following up on the POLITICO subscription cancelations?)

I think you guys were late on submissions and I believe a bunch of what was in there was new that we had not logged so, if ok, I advise for you to work with the team to figure out what are new entries and what are duplicates

Sorry about that guys – I think Erica did the previous submission, and I didn't see it in my email, so that's why I thought we were behind on submissions. But it sounds like we were not. And also that I need to go through our internal contract list to get rid of duplicates!

Thanks,

Kathryn

Good Morning,

In addition to Josh email, the EPA spreadsheet provided includes several contract # duplicates (I counted 12) with different ceiling and savings values. We can't include duplicates in the GSA termination log. Within your updated spreadsheet submission, please ensure there are no duplicate entries.

Thank you!

It's possible he did not have them in his list... It seems like he is sometimes working from a list other than the one we provide, or our list from 2-3 weeks ago.

I think the language is clear enough here that we should halt the other 17. i.e. Travis said the "entire" program.

It looks like there were 17 other pre-award actions under this program that were not selected. Any idea why?

Great Travis, thank you! We will get moving on these, plus all the TCTACs!

I'm including Erica since I think she'll be submitting the cancellation requests and Dan's team will execute.

Good Morning Team—

Below are the next set of approved to cancel grants. \$42,261,933 total in remaining funds it looks like, but OMS can confirm.

One flag I have is the first few large ones are the EJ Thriving Communities Technical Assistance Centers (TCTACs)—<https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers>. There were 18 in total established, so a number of them are missed here. Not sure why they didn't all get captured (they may not have all gone out yet), but I would want to apply a broad approach and cancel them all in the vein the entire program is inconsistent with Administration priorities and I personally do not see the need for these because at the state-level, EPA and the TCTAC grantees refused to engage with the state in any kind of coordination. This should result in a larger \$\$ amount.

I can flag for OMS separately too that we want the cancellation to extend to every TCTAC grantee.

On the 2/13 grants reviewed, can you add the remaining amount of the grant? That would be helpful to see that information moving forward like it was presented on the 2/11 grants.

Hope to have another set (contracts and grants) coming y'all's way soon.

Thank you for this update Travis.

As a note: OMS is giving input on whether they think any given contract is mission-critical, and they didn't mark any of these contracts as mission-critical.

OMS is now moving forwards with terminating these contracts.

Best,
Cole

Hi everyone,

Keeping up the cadence today, we have added to the queue a list of 71 grants that were all signed before July 1, 2024, worth \$119M (ceiling; savings will be lower once we subtract obligations). The new tab is called "Feb 13 grants to cancel".

It was great to put 5 of the "[gold bars](#)" on this list, that are signed before July 1! (The majority of those were signed after July 1.) We have marked those 5 rows in blue, because gold is too hard to read. Total award value for those 5 is \$36.9M, of which \$27.8M has not yet been obligated. We are calling them "gold bars" because they were awards to grant makers who plan to give subawards. 4 of the 5 are part of the [Thriving communities](#) grantmaking program that Lee cancelled part of earlier today.

Best,
Kathryn

I have added a column "T&C" that indicates no notice and comment period required for the contracts and grants we already sent you. As you can imagine, the DOGE team has lawyers that are pretty experienced with grant and contract cancellation at this point, so that's what that is based on!

I will also add that the careers in EPA OMS are already supporting us on this – they are the ones who will be executing the cancellation on your greenlight, not us. They see no issues with cancelling the Feb 11 list of contracts, and we're sharing the Feb 12 list with them now. They seem very knowledgeable about this topic, so I think you should trust them on how to cancel properly!

Thank you so much! This is really helpful. Paige and I had a good discussion with the Administrator last night reviewing the examples and process. One aspect he raised that we just want to ensure we are covering when taking the action to cancel that we are doing it reflective of any terms/conditions/notification requirements in the contract or grant. Is that something y'all feel you are able to capture in your review or we can engage OMS to quickly get us that details.

Otherwise he liked the process and agrees that we'll be able to quickly move through reviewing these once that element is addressed.

Sorry again to add one more aspect, but with that I believe we'll be able to cover all the elements requested by the Administrator.

Hi all, thank you so much for taking a look at the Feb 11 contracts last night! I moved the rows that were more controversial over to the "contracts to review" tab. (e.g. if Paige flagged.) The careers are ready to hit cancel on the rest, pending a green light from you all!

In addition, we added a new tab "Feb 12 contracts to cancel" with a new tranche of contracts we found today. We'd love your review on those as well.

Similar story for the grants – the grants that Paige flagged are moved over to “grants for further review”. They are all under 2 grant programs EPA has already halted, and were all signed prior to July 1, 2024, so we think they will be straightforward to cancel once you give a green light. We did not add any new grants today; maybe tomorrow 😊

And in all tabs there is now a “reason” column to justify cancellation.

Best,
Kathryn

Loving, Kathryn invited you to edit a file

Hi Travis, as we discussed today, here's a list of contracts and grants that we want to push forward to cancellation, and keep the momentum going! We removed the ones we thought were yellow flags, so we think these are pretty uncontroversial, but we added a column "AO reviewed", for your team to add any greenlight or flags.

Thanks!
Kathryn

Hi Josh,

Here is the grant termination log info, for 1 grant that the team is working on cancelling tonight – I will ping you when it's actually done.

Proposed tweet: Nice job EPA, saving taxpayer dollars that would have gone to “Advancing tree equity” and other environmental justice causes!
(Feel free to wordsmith.)

As Lee mentioned on X, there are hundreds of these (most of the titles are not this funny). I'll send you another report tomorrow.

Good morning,

We received approval to cancel \$116M in pending grant awards today. Attached is the updated spreadsheet.

Please wait to post on X as the EPA is working on a press release they would like to post first. Below is what our X post can be once they release:

“EPA cancels 21 pending grants totaling \$116M for reducing GHG emissions for construction materials that do not align with the EPA's [priorities](#).”

Thanks,
Erica

Hi Josh,

Here is a belated update on new contract cancellations from last week.

Please hold off posting on X, because Lee's PR team had asked that we let them do it first. I'll ping you when it's ok to post. The post I suggested is "EPA has terminated 24 more contracts, helping the American taxpayer avoid another \$77M in costs".

Also – let me know what you think about including the \$50M row in this report, that I colored red? Canceling grants before they are awarded is easier, and more impactful in terms of \$savings, so we are planning to do several more this week that are pre-award. However, they will not show up in FPDS – the "receipts" are only in the internal EPA grants database...
